

ADITYA PETEWAR

Pimpri-Chinchwad, Maharashtra, India

Phone: +91-7420883070 | adityapetewar4@gmail.com | linkedin.com/in/adityapetewar

Summary

Results-driven Information Technology undergraduate with hands-on experience in Python development, data analysis, and full-stack development. Proven expertise in customer issue resolution, automation, and data visualization with 6+ months of internship experience. Strong skills in NumPy, Pandas, Power BI, machine learning, and business analysis. SDF Vidhyadhan Foundation Scholar 2024.

Technical Skills

Programming Languages: Python, C, JavaScript, SQL, HTML, CSS

Web Technologies: Full Stack Development, Flask, Django, React (Basic), REST APIs

Data Science & ML: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Predictive Modeling

Tools & Platforms: Power BI, Jupyter Notebook

Databases: MySQL, SQLite, Database Design, Data Modeling

Core Competencies: Data Analysis, Business Analysis, Customer Problem Resolution

Experience

Technical Intern

August 2023 – November 2023

Shri Software Solutions Limited

Patan, Maharashtra, India

- Reproduced, investigated, and resolved 50+ customer-reported problems in application features including data processing errors, visualization bugs, and performance issues
- Analyzed datasets records using Python, NumPy, and Pandas for data cleaning and statistical analysis
- Created data visualization dashboards using Matplotlib, Seaborn, and Power BI reducing reporting time by 40%
- Developed automated workflows improving team productivity by and delivered weekly stakeholder presentations

Data Analysis Intern

June 2023 – August 2023

Shri Software Solutions Limited

Patan, Maharashtra, India

- Performed data cleaning and preprocessing ensuring data quality and built Python automation scripts reducing manual tasks by 30%
- Created statistical reports and visualizations for business stakeholders using Matplotlib and Seaborn

Projects

Sales Prediction System using Machine Learning | *Python, Pandas*

- Developed end-to-end machine learning model predicting sales trends with 85% accuracy using Linear Regression and Random Forest algorithms
- Performed exploratory data analysis on 100,000+ transaction records and implemented feature engineering techniques
- Created interactive visualizations showing sales forecasts and deployed model with user-friendly interface

Expense Tracker Application | *Python, SQLite, HTML, CSS, JavaScript*

- Built full-stack web application for tracking personal and business expenses with user authentication and database management
- Created RESTful APIs for CRUD operations on expense records and developed interactive dashboards with charts
- Implemented data export functionality to CSV and PDF formats for reporting purposes

Library Management System | *Python, MySQL, Database Design*

- Designed comprehensive library management system handling book inventory, member records, and borrowing transactions
- Implemented optimized MySQL database with GUI using Tkinter for managing books and issue/return operations
- Built automated reminder system for overdue books and generated reports for book availability and member history

Education

Pimpri Chinchwad College of Engineering (PCCOE), Pune

August 2024 – May 2027

Bachelor of Technology in Information Technology

Current: 3rd Year

YCP Polytechnic

2020 – 2023

Diploma in Computer Programming

Specialized in Computer Applications 92

Certifications & Achievements

Google Certifications: Completed industry-recognized Google certification programs in technology and data analysis

SDF Vidhyadhan Foundation Scholar 2024: Selected for merit-based scholarship program recognizing academic excellence and leadership potential

Technical Projects: Developed end-to-end projects showcasing full-stack development and data science capabilities
